## Education

**Chandigarh University, Mohali, Punjab**

**2020 - 2024**

*B.Tech in Computer Science & Engineering*

*8.47/10 CGPA*

**Lions School, Mirzapur, UP**

**2018 - 2019**

*Intermediate*

*96.6%*

## Work Experience

**Nokia Solutions and Networks (Software Engineering Intern)**

**09/2023 - Present**

*Software Engineer Intern*

*Bangalore, Karnataka*

- Spearheaded the development of the front end for an internal project using React, resulting in a 30% increase in user engagement.
- Facilitated seamless collaboration with cross-functional teams, leading to a 20% reduction in development time and improved project efficiency
- Contributed to the success of the internal project by driving web development and automation efforts, resulting in a 25% increase in project completion speed.

**Wictronix (Full Stack Developer Intern)**

**06/2022 - 08/2022**

*Software Development Intern*

*Remote*

- Led a team of 3 interns at Wictronix to develop a full-stack web application, Smart Words, from scratch.
- Engineered the user authentication system, including the design and implementation of the sign-in interface.
- Elevated team proficiency by over 20% through effective leadership as Technical Team Lead.

## Projects

**Health Vault - Medical Record Keeper**

[Source Code](#)

- Crafted a medical record keeper with MERN Stack integrating Scanner technology, achieving a notable 40% increase in data retrieval speed for patient medical records
- Reduced the time it takes for health care providers to gather medical information by up to 50 %
- Primed to efficiently manage medical records for a diverse patient base exceeding 1000, ensuring seamless and secure healthcare data management.

**Book Wise - Book Recommendation System**

[Source Code](#)

- Developed a model to recommend books using a Machine learning algorithm with 90 % accuracy.
- Integrated the book recommendation system with the front-end of a web application, to provide personalized book recommendations to a potential user base of over 10,000. .
- Led the group of 3 members and increased the proficiency of the group by more than 20%

**Stay Sure - Hotel Booking Website**

[Source Code](#)

- Collaborated with a team of 3 developers to design, and develop a fully functional MERN web application for hotel booking
- Contributed to the development of both the front-end and back-end, with a particular focus on UI/UX design, resulting in a 30% improvement in page load times.
- Coordinated with the team to ensure high-quality code and adherence to project requirements, resulting in a 20% reduction in bugs

## Technical Skills

**Languages:**C, C++, Java, JavaScript

**Backend:** Node.js, Express.js

**Frontend:** React JS, TailwindCSS, HTML, CSS, Bootstrap

**Clouds & Databases:** AWS, SQL, MongoDB

**Developer Tools:** Postman, VS Code, GitHub,

**CS Domain Knowledge::** DSA, OOPs, DBMS, Operating System, Computer Networks, Linux

## Certifications

- Developing Frontend with React (IBM) [Certificate](#)
- Software Testing (NPTEL) [Certificate](#)
- Data Mining (NPTEL) [Certificate](#)
- Networking Essentials (CISCO) [Certificate](#)
